ENCR/JRC Data Call 2022

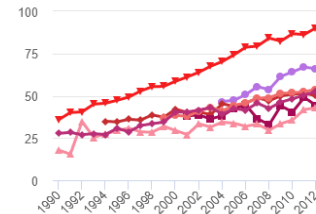

- Every year European cancer registries are invited to submit data
- ECIS – European Cancer Information System (<https://ecis.jrc.ec.europa.eu/>)

Explore the data

Incidence and mortality estimates 2022

National estimates of cancer incidence and mortality in 2022, for the major cancer sites in European countries.

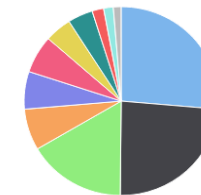

Incidence and mortality historical data

Incidence and mortality statistics over time by cancer site and demographic variables, in European cancer registration areas.

Long-term incidence and mortality estimates up to 2040

National estimates of cancer incidence and mortality up to 2040, for the major cancer sites in EU and EFTA countries, according to different projected populations.

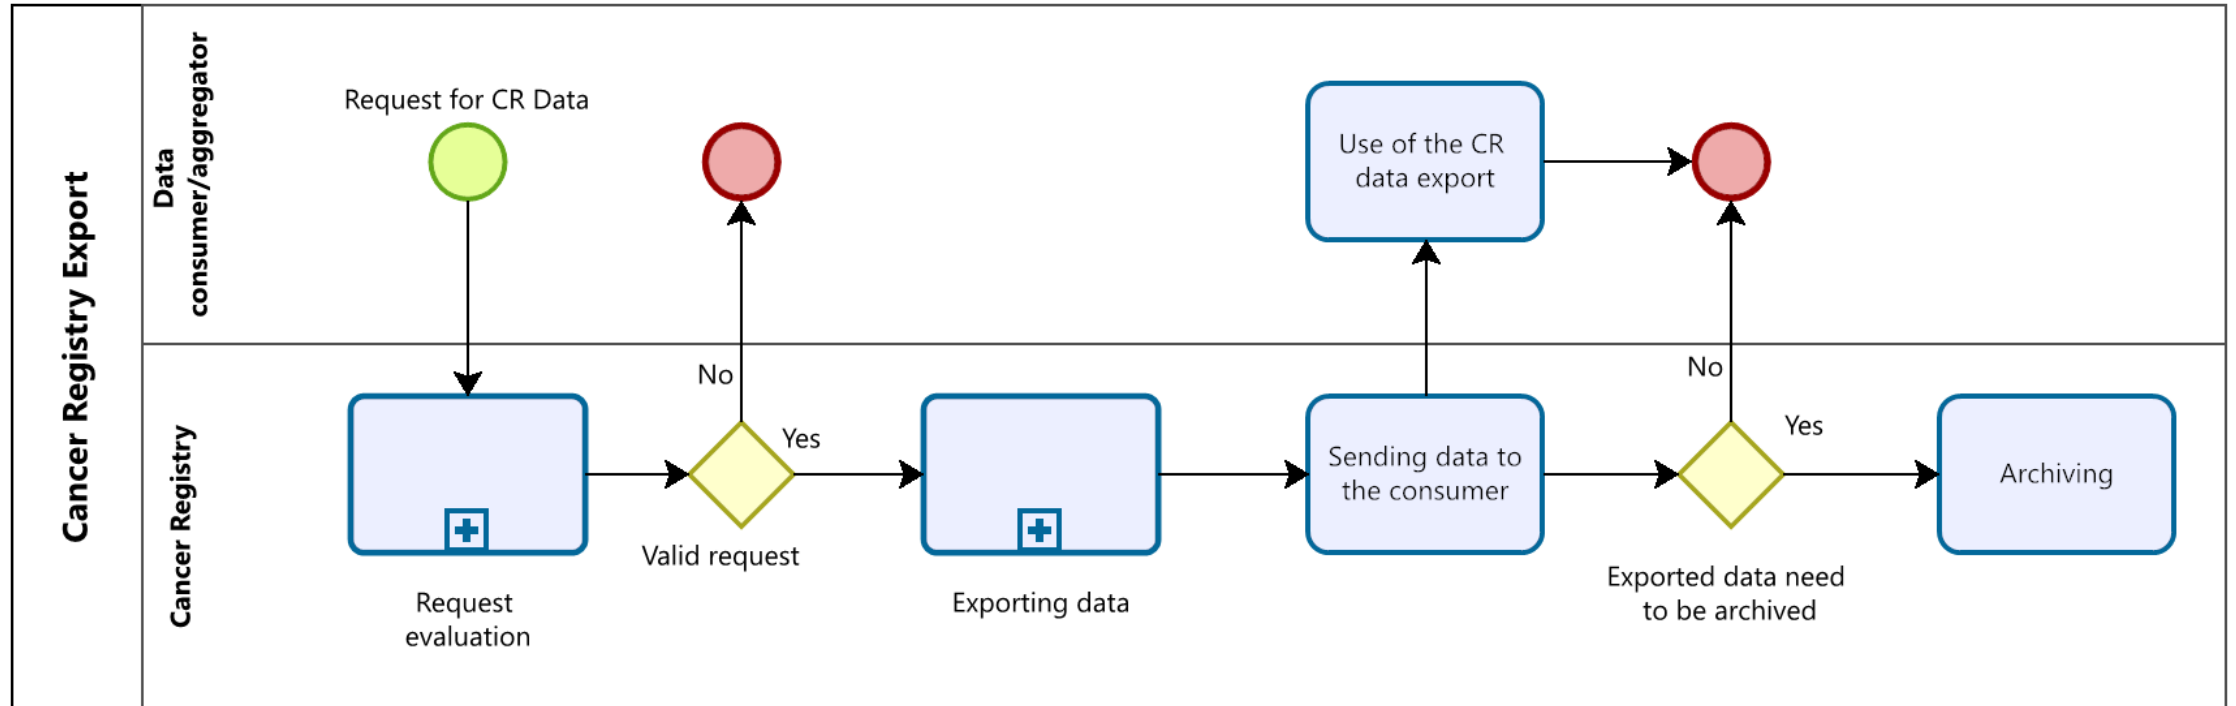

Childhood incidence historical data

Childhood incidence statistics by diagnostic group in European cancer registration areas.

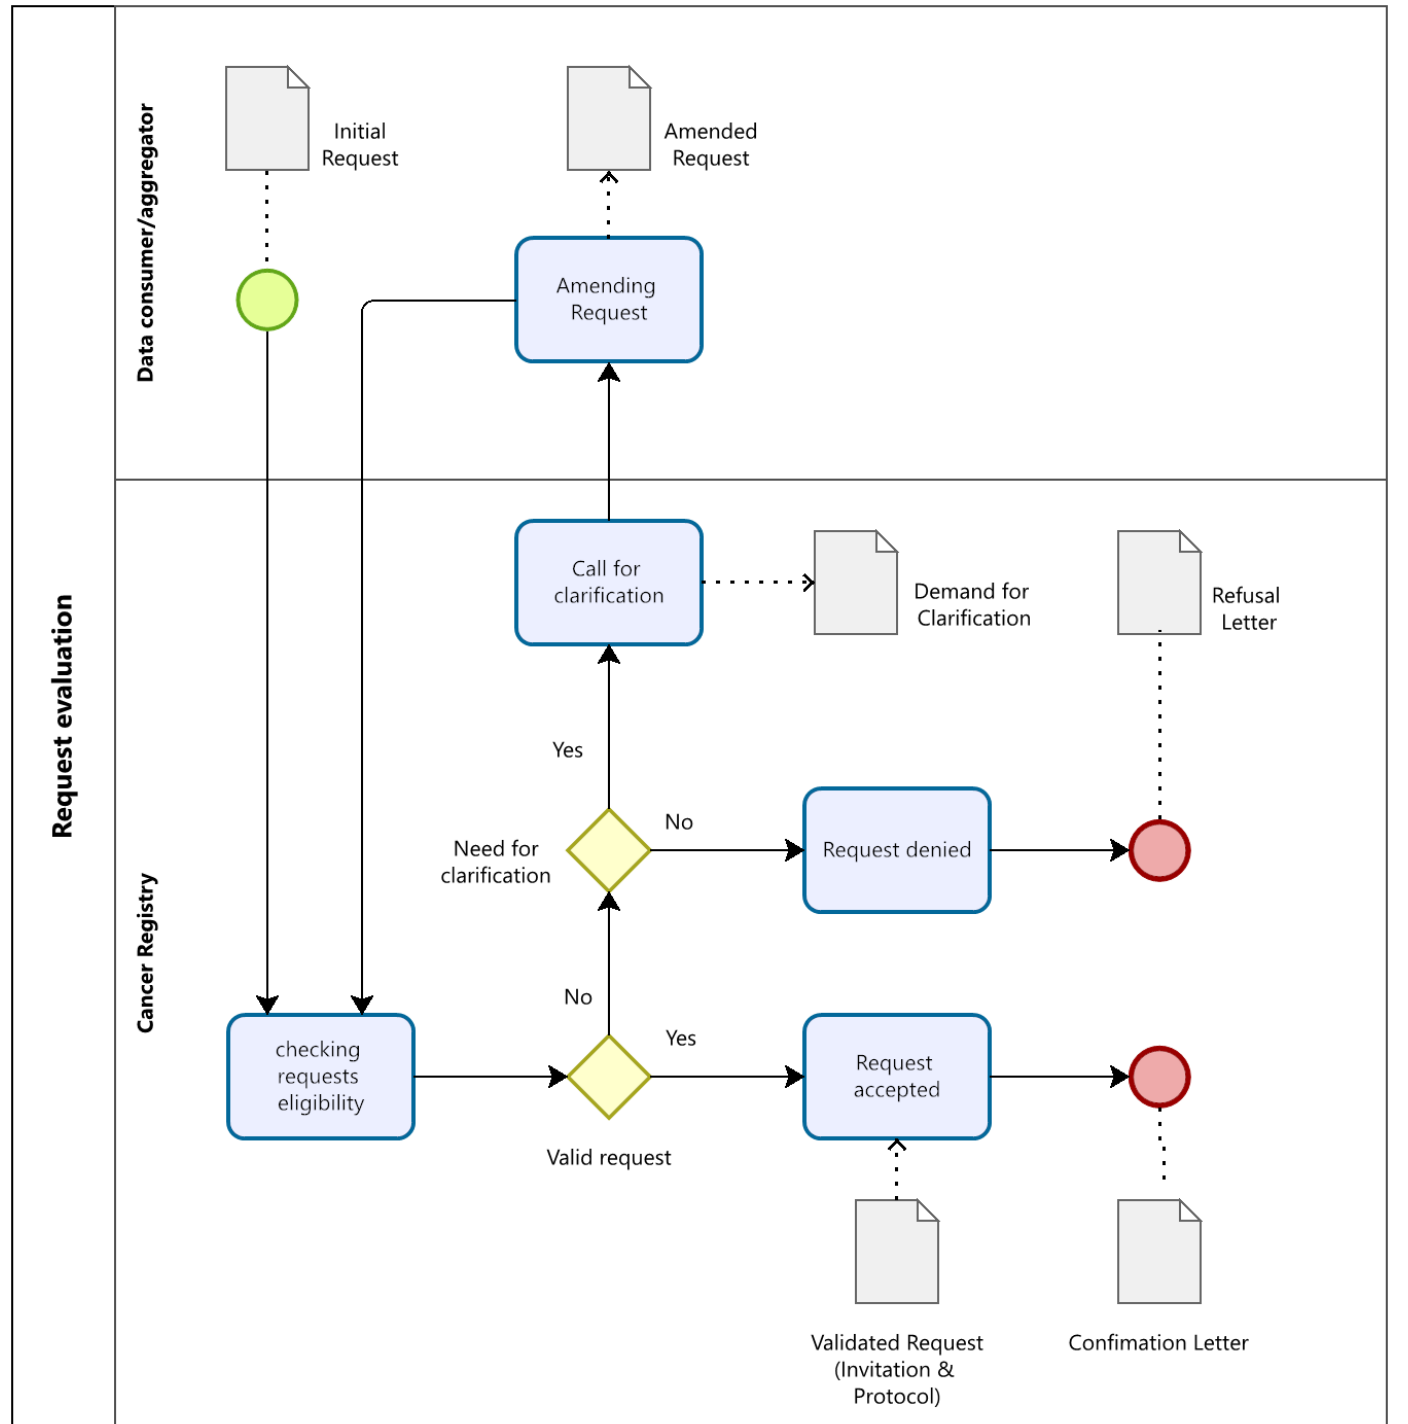

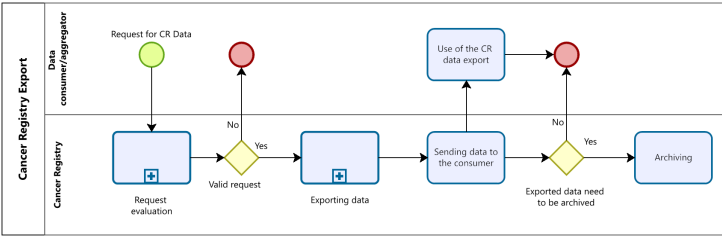

Survival estimates

Estimated indicators of survival, by cancer sites and sex, across European countries and regions.

Exporting data

Content and structure of the Submission Information Package (SIP)

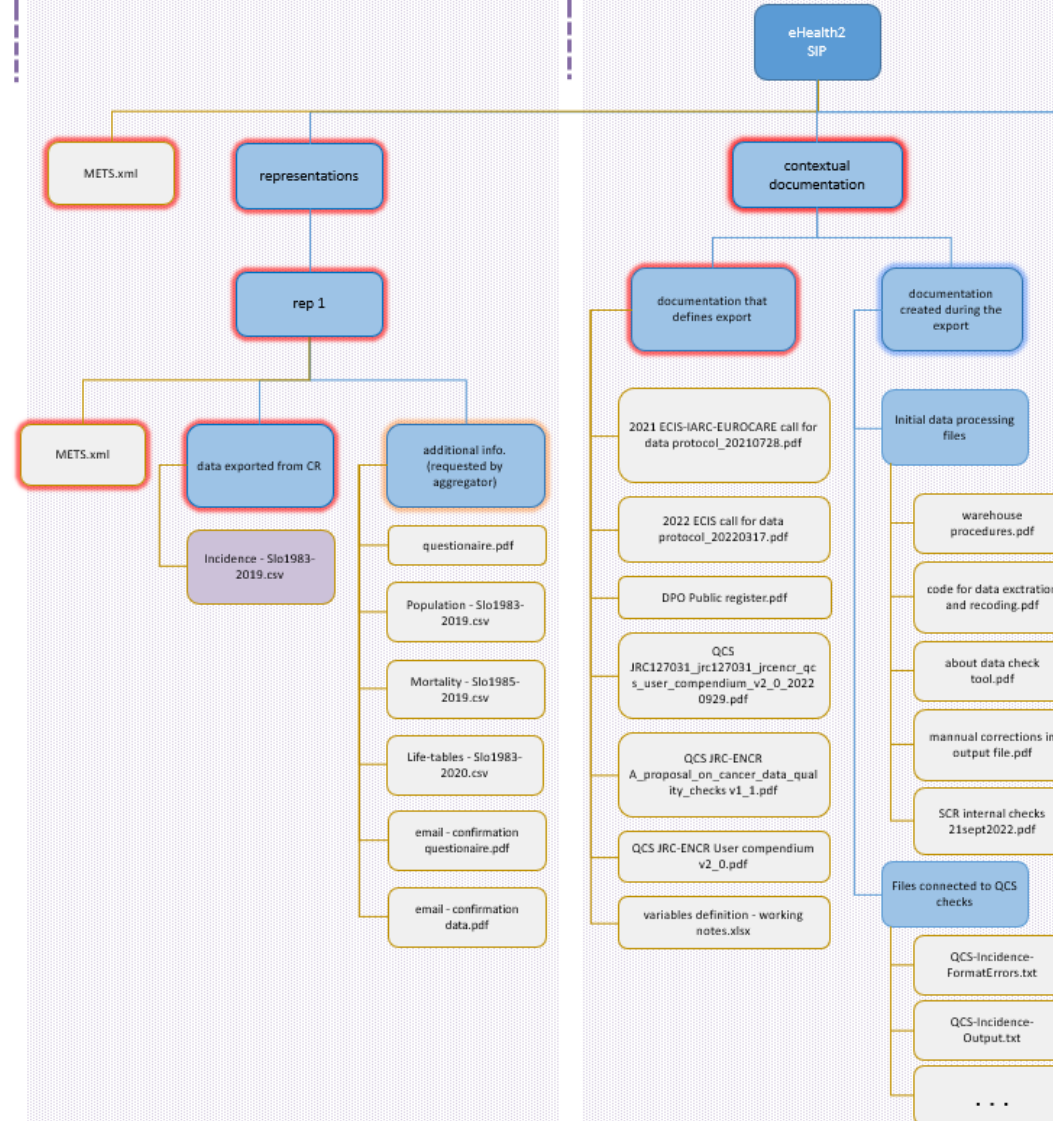

Representations

encompassing data extracted from the CR and supplementary information requested by data aggregators

Documentation

which outlines the export process and is generated during the export

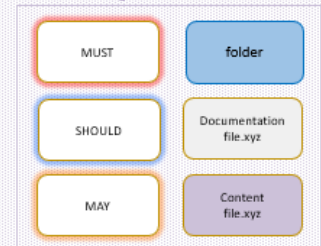

Metadata

comprising descriptive and preservation-related data

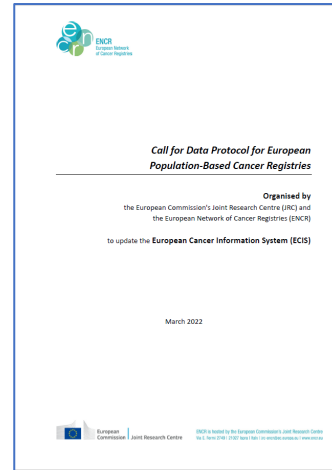

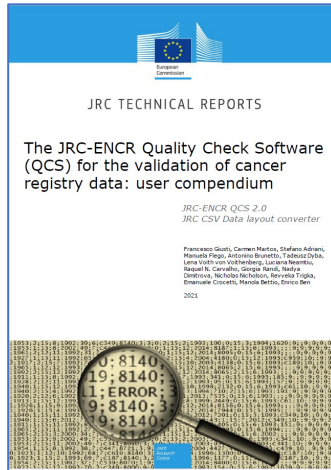

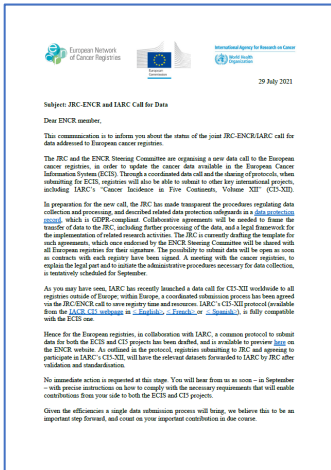

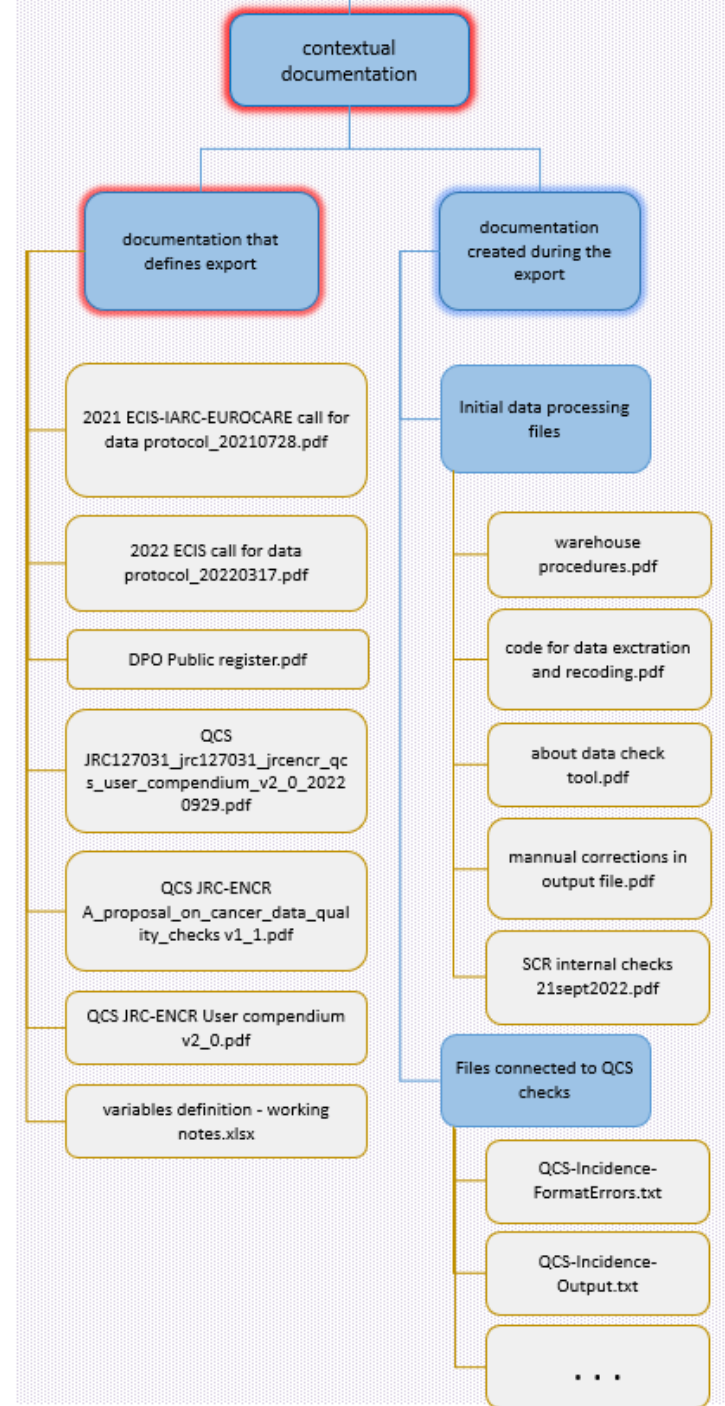

Used labeling

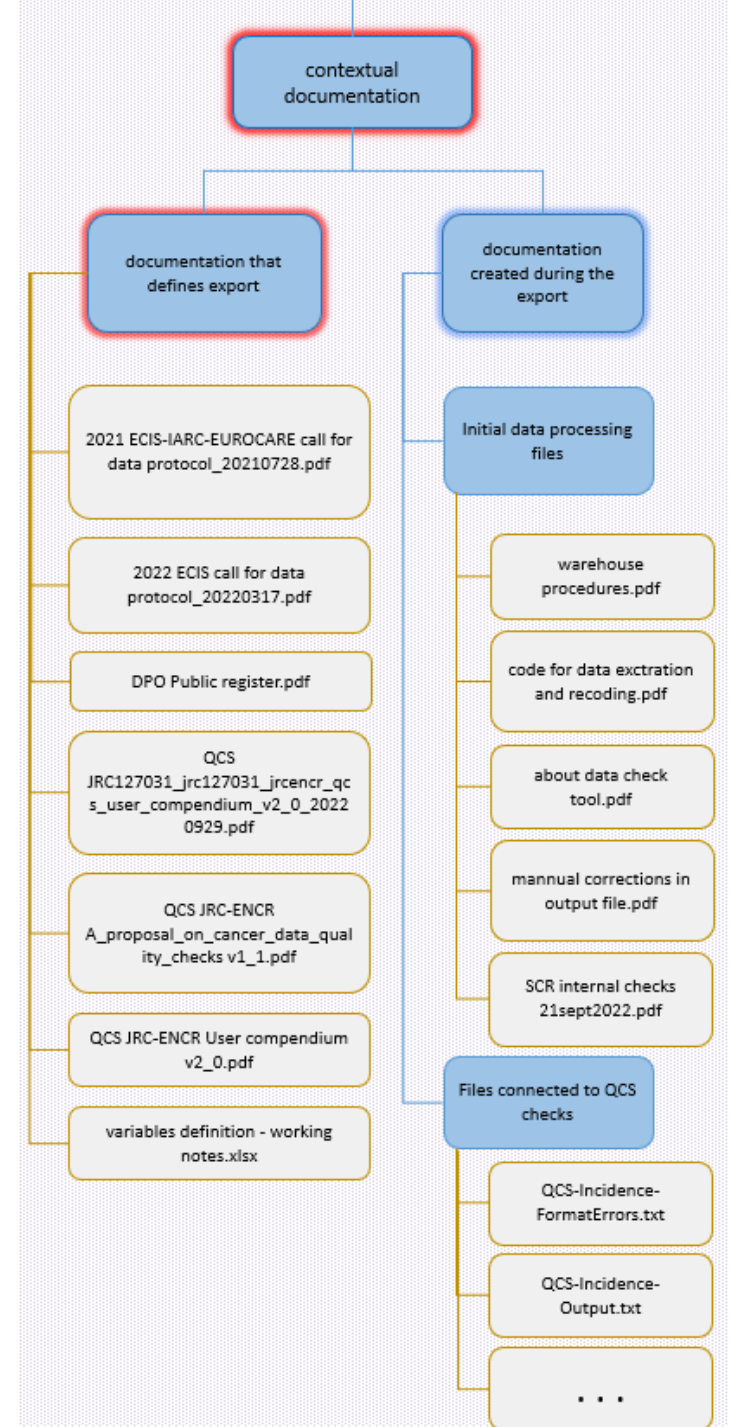

Documentation that defines export

- Invitation letter
- Protocol for data call
- QCS JRC-ENCR User compendium v2.0
- A proposal on cancer data quality checks
- <https://ecis.jrc.ec.europa.eu/>

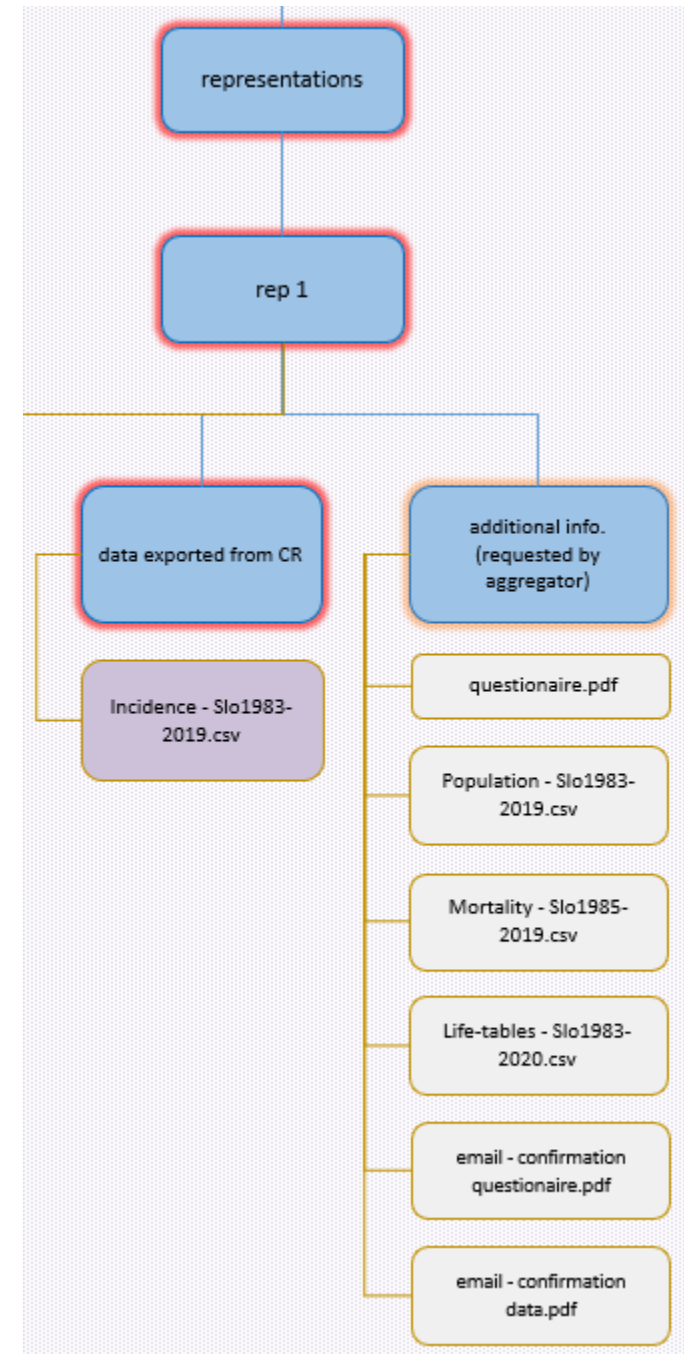

Documentation created during the export

- Code for extracting data from CR's database
- Intermediate steps of preparing the data from CR's database (e.g. results from QCS)

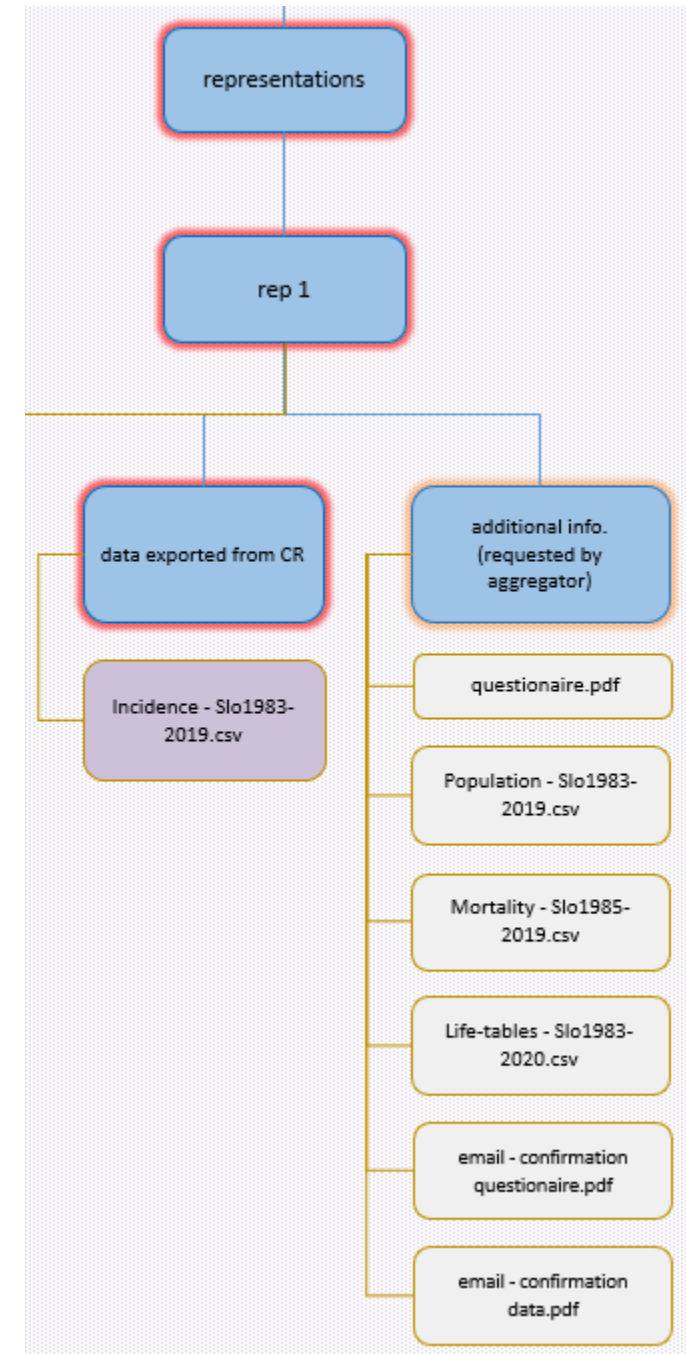

Additional info requested by aggregator

- Questionnaire
- e-mails (e.g. additional questions, confirmation for data submission)
- Data that are not information on cancer cases (population, mortality, life-tables)

Data exported from CR

- Cancer incidence file
